Perth, WA | 0425 461 415 | ciaran.engelbrecht@outlook.com | [linkedin.com/in/ciaranengelbrecht](https://www.linkedin.com/in/ciaranengelbrecht) | ciaranengelbrecht.com

PROFESSIONAL PROFILE

ICT professional and Computer Science graduate with 5+ years of hands-on experience supporting users, endpoints, identity, networks and business systems across education, managed services and WA Government. Strong in Microsoft 365, Active Directory, Jamf, Windows/macOS/iPadOS, Aruba networking, structured troubleshooting, documentation and automation. Combines frontline support discipline with practical systems, networking, security and scripting capability.

CORE CAPABILITIES

ICT support: Level 1/2 onsite and remote support; incident/request triage; account, device, software, printer, AV and business application troubleshooting; clear user communication and escalation.

Systems & endpoint: Microsoft 365, Active Directory, Group Policy, Entra ID, Windows, macOS, iOS/iPadOS, Jamf Pro/School, device deployment, onboarding/offboarding, permissions and identity/access management.

Networks & infrastructure: Aruba Central, Aruba/HPE and Cisco switching/APs; VLANs, Wi-Fi, DNS/DHCP, VPN, cabling, port/patching checks and layered physical-to-endpoint troubleshooting.

Security, automation & development: Microsoft Sentinel, Defender XDR, KQL, Essential Eight, PowerShell, Microsoft Forms, Power Automate, Python, C, JavaScript, audit evidence and repeatable process improvement.

PROFESSIONAL EXPERIENCE

Graduate ICT Officer | WA Health

2026-Present

Graduate placement across enterprise health data and internal application-platform delivery.

- Validated enterprise health data in Snowflake and SQL across fact/dimension models, mappings, joins, source-to-target rules and business logic, identifying transformation and data-quality issues.
- Developed and documented features for an internal governed data platform using FastAPI, React/TanStack and SQL, covering authentication, RBAC, APIs, data access and dashboard functionality.
- Supported SharePoint metadata design and large-list uploads to improve information governance, discoverability and structured data management.
- Used Git and Azure DevOps-style delivery workflows to investigate issues, document changes and collaborate with technical and business stakeholders.

Graduate ICT Officer - Cyber Security | Main Roads Western Australia

2025-2026

State government placement focused on identity, monitoring, governance, reporting and automation.

- Developed KQL queries in Microsoft Sentinel to investigate sign-in activity, MFA issues, error codes and success/failure trends, and correlated identity and endpoint activity with Defender XDR alerts.
- Performed privileged, guest and group-membership access reviews to strengthen least-privilege controls and identity hygiene.
- Built Power BI security and compliance reporting from scripted datasets and automated account/group audits and evidence collection using PowerShell and Microsoft Graph.
- Contributed to Essential Eight uplift through VBA signing and timestamp validation, phishing analysis, macro security controls and endpoint compliance checks.
- Produced technical procedures, risk-assessment templates, governance documentation and audit evidence for repeatable security processes.

Junior IT Systems Engineer | ITDynamics

2023-2025

Managed-services role progressing from remote service desk to embedded Level 2 support at Prendiville Catholic College, approximately 1,300 users.

- Owned Level 2 incidents and requests across Windows/Mac endpoints, iPads, Microsoft 365, SharePoint, Teams, SEQTA, Compass, printers, Wi-Fi, AV/Vivi, telephony-related services and CCTV, prioritising high-impact issues through to resolution.
- Administered day-to-day Microsoft 365, Active Directory and Group Policy tasks, including staff/student account creation, password resets, group memberships, permissions and application access.
- Deployed and maintained Apple devices through Jamf Pro/School, covering app deployment, compliance, lifecycle management and endpoint troubleshooting.
- Diagnosed connectivity issues end to end across cabling, link state, switch ports, VLAN assignment, DHCP/DNS, wireless coverage, authentication and endpoint configuration.
- Deployed replacement switches, configured VLAN and access ports, and restored connectivity following switch failures; assisted with installing and validating new Aruba/Cisco switches and access points.
- Delivered the annual Year 7 device onboarding and rollout, covering preparation, enrolment, deployment, testing and issue resolution.
- Created technical procedures, IT Glue/ConnectWise knowledge articles, user guides and internal web resources to improve self-service, repeatability and escalation handover.
- Built Python/PowerShell PDF and OCR tooling that reduced manual processing by approximately 90%, and automated onboarding/offboarding and recurring workflows with Power Automate.

IT Support Technician | Catholic Education WA / Irene McCormack Catholic College**2021-2023**

Onsite Level 1 ICT support for a secondary school environment of approximately 1,000 users, a 1:1 student device program and more than 50 learning spaces.

- Resolved incidents involving accounts, passwords/logins, device setup, software, printing, Wi-Fi and classroom AV, explaining solutions clearly to non-technical staff and students.
- Prepared, imaged, deployed and repaired Windows/Mac devices and iPads, including screen and battery replacements, and managed shared/loan equipment, charging trolleys and device-allocation records.
- Supported time-critical lessons, assessments, meetings and school events by prioritising classroom technology issues and restoring service quickly.
- Performed first-line connectivity checks across wireless access, physical cabling, classroom equipment and access points, escalating clear diagnostic evidence to Level 2/3 teams.
- Assisted staff/student onboarding and cohort device preparation, routine classroom technology checks, asset records and recurring-issue tracking.
- Produced user guides and internal support resources to improve staff self-service and reduce repeat requests.

TECHNICAL TOOLKIT

Support & ITSM: Level 1/2 onsite, remote and walk-in support; incident/request triage; prioritisation; SLA awareness; escalation; asset and knowledge management; ConnectWise and IT Glue; familiarity with ServiceNow and Freshdesk.

Microsoft & identity: Microsoft 365, Teams, SharePoint, OneDrive, Outlook; Active Directory; Group Policy; Entra ID; MFA/sign-in troubleshooting; permissions; group memberships; access reviews; Exchange Online working knowledge.

Endpoint management: Windows 10/11, macOS, iOS/iPadOS; Jamf Pro and Jamf School; imaging, deployment, app/software installs, rebuilds, updates, compliance and device lifecycle; Intune/SCCM familiarity.

Networking: Aruba Central; Aruba/HPE and Cisco switches/APs; TCP/IP, DNS, DHCP, ARP, subnetting, switching, VLANs, Wi-Fi and VPN; switch ports, patching, access/trunk concepts, cabling and link-state troubleshooting; Zabbix familiarity.

Security & automation: Microsoft Sentinel, Defender XDR, KQL, Essential Eight, least privilege, access reviews, audit evidence, PowerShell, Microsoft Graph API, Power Automate, Python and Bash.

Data & development: SQL, Snowflake, Power BI, Excel; FastAPI, Flask, React/TanStack, REST APIs, authentication/RBAC concepts, Git, GitHub, Azure DevOps-style workflows, CI/CD and Jira familiarity.

CERTIFICATIONS & CLEARANCES

CompTIA Network+ | GitHub Foundations | Snowflake Hands-on Essentials | Cisco Introduction to Data Science

Working with Children Check | Current Australian Police Clearance | CEWA mandatory reporting and child-protection training

EDUCATION

Bachelor of Science - Computer Science | University of Western Australia

2025

Bachelor of Science - Registered Nursing | Edith Cowan University

2020
