ICT SUPPORT | SYSTEMS | NETWORKS

Perth, WA | 0425 461 415 | ciaran.engelbrecht@outlook.com | [linkedin.com/in/ciaranengelbrecht](https://www.linkedin.com/in/ciaranengelbrecht) | [ciaranengelbrecht.com](https://www.ciaranengelbrecht.com)

PROFESSIONAL PROFILE

ICT professional and Computer Science graduate with 5+ years of hands-on experience across Level 1/2 support, systems and endpoint administration, networking, cybersecurity, data/application development and automation within education, managed services and WA Government. More than four years supporting education environments of approximately 1,000-1,300 users. Strong experience in Microsoft 365, Active Directory, Apple/Windows endpoint management and Aruba networking, with practical experience in infrastructure projects, identity and access, technical documentation, process improvement and scripting.

CORE CAPABILITIES

ICT support: Level 1/2 onsite, remote and walk-in support; incident/request triage; escalations; account, endpoint, software, printing, AV and business application troubleshooting; user communication and prioritisation.

Systems & endpoint: Microsoft 365, Active Directory, Group Policy, Entra ID, Windows, macOS, iOS/iPadOS, Jamf Pro/School, Apple School Manager; deployment, enrolment, profiles/apps, onboarding/offboarding, permissions, compliance and device lifecycle.

Networks & infrastructure: Aruba Central, Aruba/HPE and Cisco switching/APs; VLANs, Wi-Fi, DNS/DHCP, VPN, cabling, access/trunk concepts, switch-port/patching checks, infrastructure deployment and physical-to-endpoint troubleshooting.

Security & automation: Microsoft Sentinel, Defender XDR, KQL, Essential Eight, least privilege, PowerShell, Microsoft Graph, Power Automate, Python, SQL, Snowflake, Power BI, audit evidence and repeatable process improvement.

PROFESSIONAL EXPERIENCE

ICT Graduate – Data Analysis, Data Science, Application Development | WA Health

2026-Present

Graduate placements across enterprise health data and internal application-platform delivery.

- Validated enterprise health data in Snowflake and SQL across fact/dimension models, mappings, joins, source-to-target rules and business logic, identifying transformation and data-quality issues, stakeholder engagement and business requirement gathering.
- Developed and documented features for an internal governed data platform using FastAPI, React/TanStack and SQL, covering authentication, RBAC, APIs, data access and dashboard functionality.
- Supported SharePoint metadata design and large-list uploads to improve information governance, discoverability and structured data management.
- Used Git and Azure DevOps-style delivery workflows to investigate issues, document changes and collaborate with technical and business stakeholders.

ICT Graduate - Cyber Security | Main Roads Western Australia

2025-2026

State government placement focused on identity, monitoring, governance, reporting and automation.

- Developed KQL queries in Microsoft Sentinel to investigate sign-in activity, MFA issues, error codes and success/failure trends, and correlated identity and endpoint activity with Defender XDR alerts.
- Performed privileged, guest and group-membership access reviews to strengthen least-privilege controls and identity hygiene.
- Built Power BI security and compliance reporting from scripted datasets and automated account/group audits and evidence collection using PowerShell and Microsoft Graph.
- Contributed to Essential Eight uplift through VBA signing and timestamp validation, phishing analysis, macro security controls and endpoint compliance checks.
- Produced technical procedures, risk-assessment templates, governance documentation and audit evidence for repeatable security processes.

Junior IT Systems Engineer | ITDynamics

2023-2025

Managed-services role progressing from remote service desk to embedded Level 2 ICT support at Prendiville Catholic College, supporting approximately 1,300 users.

- Owned Level 2 incidents and escalations across Windows/macOS/iPadOS endpoints, Microsoft 365, SharePoint, Teams, SEQTA, printing, Wi-Fi, AV/Vivi, telephony and CCTV, prioritising high-impact issues through to resolution.
- Administered Microsoft 365, Active Directory and Group Policy, including staff/student onboarding and offboarding, account creation, password management, security groups, permissions and application access.
- Managed Apple endpoints using Jamf Pro, Jamf School and Apple School Manager, including enrolment, application and configuration-profile deployment, compliance, troubleshooting and device lifecycle management.
- Administered Teams, OneDrive and SharePoint sites/libraries and permissions, plus software licensing, application access and Adobe Admin Console.
- Supported education and infrastructure platforms including SEQTA, Edval, PaperCut, firewall/web-filtering services and Fastvue reporting, telephony, CCTV, classroom AV/Vivi and service-monitoring dashboards.
- Diagnosed connectivity issues end to end across cabling, link state, switch ports, VLAN assignment, DHCP/DNS, wireless coverage, authentication and endpoint configuration.
- Audited switch and wireless infrastructure, configured VLAN and access ports, restored connectivity following switch failures, and assisted with deployment and validation of Aruba/Cisco switches and wireless access points.
- Delivered annual staff/student device rollouts, including preparation, enrolment, configuration, deployment, testing and post-deployment issue resolution.
- Used ConnectWise, IT Glue and Jira for incident management, remote support, project tracking, technical documentation and knowledge management.
- Worked with end users and ICT leadership to gather requirements, develop technical solutions, audit established processes and improve service workflows.
- Built Python/PowerShell PDF and OCR tooling that reduced manual processing and automated onboarding/offboarding and recurring workflows with Power Automate.

- Created technical procedures, knowledgebase articles, user guides and internal web resources to improve self-service, repeatability and escalation handover.

IT Support Technician | Catholic Education WA / Irene McCormack Catholic College

2021-2023

Onsite Level 1/2 ICT support for approximately 1,000 staff and students across a 1:1 device environment and more than 50 teaching spaces.

- Resolved staff and student incidents across accounts, logins, Windows/Mac/iPad devices, software, printing, Wi-Fi and classroom technology, explaining solutions clearly to non-technical users.
- Created and managed staff/student accounts through Active Directory, Microsoft 365 and SEQTA, supporting groups, access and new-starter onboarding.
- Prepared, imaged, configured, deployed and repaired Windows/Mac devices and iPads, including screen and battery replacements, shared/loan equipment and device-allocation records.
- Enrolled and supported Apple devices through Jamf, including applications, profiles, configuration and device deployment.
- Supported printers/copiers, projectors, Apple TV, Vivi and classroom AV, including time-critical lessons, assessments, meetings and school events.
- Performed first-line network troubleshooting across wireless access, physical cabling, switch connections and access points, escalating clear diagnostic evidence to Level 2/3 teams.
- Assisted with cohort device preparation, asset/lifecycle records, recurring-issue tracking, user guides and internal support resources.

TECHNICAL TOOLKIT

Support & ITSM: Level 1/2 onsite, remote and walk-in support; incident/request triage; prioritisation; SLA awareness; escalation; asset and knowledge management; ConnectWise, IT Glue and Jira; familiarity with ServiceNow and Freshdesk.

Microsoft & identity: Microsoft 365, Teams, SharePoint, OneDrive, Outlook; Active Directory; Group Policy; Entra ID; MFA/sign-in troubleshooting; permissions; security groups; access reviews; Exchange Online working knowledge.

Endpoint management: Windows 10/11, macOS, iOS/iPadOS; Jamf Pro, Jamf School, Apple School Manager; imaging, enrolment, application/profile deployment, rebuilds, updates, compliance and device lifecycle; Intune/SCCM familiarity.

Networking & monitoring: Aruba Central; Aruba/HPE and Cisco switches/APs; TCP/IP, DNS, DHCP, ARP, subnetting, switching, VLANs, Wi-Fi and VPN; switch ports, patching, access/trunk concepts, cabling and link-state troubleshooting; Zabbix/Grafana monitoring.

Security & automation: Microsoft Sentinel, Defender XDR, KQL, Essential Eight, least privilege, access reviews, audit evidence, PowerShell, Microsoft Graph API, Power Automate, Python and Bash.

Data & development: SQL, Snowflake, Power BI, Excel; FastAPI, Flask, React/TanStack, REST APIs, authentication/RBAC concepts, Git, GitHub, Azure DevOps-style workflows and CI/CD.

Education & business systems: SEQTA, Edval, PaperCut, Adobe Admin Console, Fastvue, Oliver, SharePoint, Microsoft Forms/Bookings, Vivi, CCTV, POS and telephony systems.

CERTIFICATIONS & CLEARANCES

CompTIA Network+ | GitHub Foundations | Snowflake Hands-on Essentials | Cisco Introduction to Data Science

Working with Children Check | Current Australian Police Clearance | CEWA mandatory reporting and child-protection training

EDUCATION

Certificate IV in Network and Cloud Security | North Metropolitan TAFE

Expected 2027

Bachelor of Science - Computer Science | University of Western Australia

2025

Bachelor of Science - Registered Nursing | Edith Cowan University

2020
